

2017 Streetworks Updates

Project Skills Solutions
What you need to know...

Key Points

- The changes won't affect your existing certificates and cards – they remain valid until they expire
- When it comes time to renew your certificates they will automatically be converted to their new style
- If you renew your certificates on a like-for-like basis, you will be re-assessed in the same subjects as before
- Each certificate will have its own expiry date – there will no longer be a card expiry date
- Once your certificate is expired it is not valid

Re-Assessment

The new regulations allow you to now take your re-assessment up to 5 years after your certificate expires instead of the 6 months you used to get. You cannot perform the work that certificate covers once it has expired though.

You can renew your certificates at any time, if you renew in it's last year you will get 5 years plus the remaining time left on your certificate, if you renew before then you will get a fixed 6 years.

If you are an existing card holder and you decide to renew your certificates on a like-for-like bases, you will be reassessed on the same subjects as before. If you had units 1, 2, 6 and 7 you would be reassessed in LA, O1, O5 and O6.

You have 5 years to renew your streetworks certificates once they expire.

You can renew any time in the last year without losing the unexpired portion.

If you are an existing card holder and renew, you can be re-assessed in exactly the same subjects as before.
